Nathanael Johnson

Fruitvale, TX • 903-449-9432 • nathanael@nrjohnson.net

nrjohnson.net • GitHub • LinkedIn

I am a born again believer on a constant search for truth. I learn fast and new skills come easily to me. I thoroughly enjoy technology and most of my hobbies involve some sort of computer work.

I'm the type of guy who has a linux server on my refriderator running an instance of Photoprism. As a gift I built a living picture frame from an old laptop screen, a Rasberry Pi, and my own Go app. I set up my own DNS server in my home to help moderate the content my family consumes. In short, web development technology is a passion of mine that has continued to excite me over the years.

I will be a valuable, hard working addition to any web development team with a wide range of complimentary skills. You can view my portfolio at nrjohnson.net.

Work History

Web Developer / Graphic Designer

GFA World (Gospel for Asia) • **Jan 2022 - Present**

I continue my role in Graphic Design. But after demonstrating skills in web development my role was split. My web work is primarly in front end, but I also work on the occasional back end job.

Graphic Designer

GFA World (Gospel for Asia) • **Oct 2016 - Jan 2022**

I create various publications that are used in print and web. These range from updates on basic pieces, like reply cards, to highly creative projects like magazines.

Certifications

CS50's Introduction to Computer Science

Jan 2023 • Harvard University

Responsive Web Design

Jan 2022 • freeCodeCamp
